

Recent Considerations in Contrast Media Selection and Use

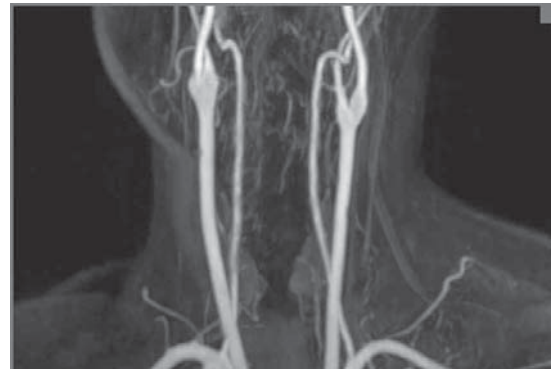

May 10, 2011

Tuesday • 6:15 pm - 8:15 pm

Meeting Room #518 ABC

Palais des Congres de Montréal

Appetizers Served after Symposium

Symposium Moderator:

Gilles Soulez, MD

*Professor of Radiology
Center Hospital of the University of Montreal (CHUM)
Notre Dame Hospital
University of Montreal*

Symposium Faculty:

Silvio Aime, MD

*Department of Chemistry
IFM and Molecular Imaging Center
University of Torino*

Fiona J Gilbert, MD

*Department of Radiology
Professor of Radiology
Aberdeen Biomedical Imaging Centre
University of Aberdeen*

Emanuel Kanal, MD

*Director, Magnetic Resonance Services
Professor of Radiology and Neuroradiology
University of Pittsburgh Medical Center*

Symposium Agenda:

- 6:00 pm** Meeting Room #518 ABC Opens
- 6:15** Welcome & Introduction
- Gilles Soulez, MD
- 6:20** Structure/Property Relationships
in Gadolinium-Based Contrast Agents:
What a Radiologist Should Know
- Silvio Aime, MD
- 6:45** Increased Breast Cancer Detection
with Gadobenate Dimeglumine-enhanced
Breast MRI Compared with
Conventional Enhanced MRI,
Mammography, and Ultrasound
- Fiona J Gilbert, MD
- 7:10** MRI Contrast Agent Safety:
Just the Facts Please -
- Emanuel Kanal, MD
- 7:50** Interactive Q & A Session -
- Moderated by Gilles Soulez, MD
- 8:15 pm** End of Symposium - **Appetizers Served**

Supported by an unrestricted educational grant from
Bracco Diagnostics Inc.

Presented by: Northwest Imaging Forums, Inc.
