Room Meeting room 707, South building, Level 700

Philips ISMRM 2015 Advanced Imaging Workshop

Liver imaging made more definitive

The workshop aims to give each participant an overall understanding of liver imaging, including fat-free imaging, motion-free imaging, DWI, ADC, mDIXON Quant and MRE. During this Advanced Imaging Workshop three presenters will share their views and experiences on these different aspects of liver imaging

Program

Comprehensive liver imaging

Mr Lars Peter S. Larsen MD, University Hospital Aarhus, Denmark

MR Elastography

Mr Raja Muthupillai PhD, St Lukes Episcopal Hospital, USA

Fat-and Motion-free imaging

Mr Lars v Loon, Clinical Marketing Manager MRI, Philips Healthcare
