Room Meeting room 707, South building, Level 700

Philips ISMRM 2015 Advanced Imaging Workshop

Making MR accessible for every patient condition

The workshop aims to give each participant an overall understanding of the challenges in clinical practice of imaging patients with MR conditional implants / SAR and Philips MR vision on "Patient Conditional UI". During this Advanced Imaging Workshop three presenters will share their views and experiences on different aspects of imaging patients with MR conditional implants.

Program

MR Safety of implants

Ms. Vera Kimbrell. B.S., R.T. (R)(MR), Chair of SMRT safety committee

SAR

Ms. Cecilia Possanzini, Principal Scientist & Systems Architect, Diagnostic Imaging Architecture, Philips Healthcare

Patient Conditional UI

Mr Marius van Meel, Clinical Marketing Manager MRI, Philips Healthcare
