## Creating Value with Intelligent MR

Canon Medical and Olea Medical are utilizing intelligent image enhancement and advanced post-processing technology to create true value in MR imaging.

Artificial Intelligence is fast opening up a new world of value in MRI. Canon and Olea are collaborating with research sites globally to bring MRI to a new era of speed, patient comfort and advanced diagnosis.

## Canon/Olea Sponsored Symposium

**July 24 - August 14 2020**

Please view pre-recorded webinars to learn how key radiologists from Europe and the USA view the role of MRI in the post-Covid era, and learn about CEST imaging, a promising MRI method for tumor characterization.

### *Canon Medical Session*

## **MRI in the Post-Covid Era**

Professor

**Vincent Dousset**

Bordeaux University Hospital, France

Professor

**Luca Saba**

University of Cagliari, Italy

Professor

**Joao Lima**

John Hopkins University, USA

Professor

**Josep Puig**

Comparative Medicine and  
Bioimage Centre of Catalonia, Spain

### *Olea Session*

## **CEST Imaging**

**Stefano Casagrande, PhD**

Senior Research & Innovation Engineer, Olea Medical

**Join our Live Q&A Webinar on August 13**

Webinar participants will be available to answer your questions

**Time: 5-6pm (Europe UTC), 1-2pm (USA EDT)**
