An Online Experience | 15-20 May 2021

Breast MRI: Special Focus Meeting

16-18 May 2021

The ISMRM is excited to offer Breast MRI: A Special Focus Meeting, to be held during the annual meeting – a meeting *within* the meeting!

This program is targeted towards MDs who are looking to learn more about basic applications of breast MRI, cutting-edge developments and their translation to the clinics. Attendees will have access to more than 24 hours of on-demand educational and scientific content focused on breast and body imaging. Additional hot topics covered are data security and the applications of artificial intelligence in Radiology (including 22+ CME/SAM credits). Attendees can participate in Live Q&A sessions lead by international experts in breast MRI. A guided path through the 3-day meeting will be provided to ensure that participants can maximize their learning in this compact course, which can be accessed from anywhere around the world.

EARN UP TO 23.5 CME CREDITS!

TOPICS INCLUDE:

- Keynote lecture with Dr. Katja Pinker-Domenig, Breast MRI expert
- Breast MRI Basics for Diagnosis & Screening
- Standardized & Quantitative Assessment in Body Imaging
- Breast MRI as a Problem-Solving Tool (Combined Education and Scientific session)
- What's New in Breast MRI (Scientific Session, featuring 50 proffered abstracts)
- Diffusion-weighted Imaging of the Breast: state-of-the art and beyond (LIVE session)
- MR Data Security in a Dangerous Era
- MRI Physics for Physicians (a crash course in MRI, geared towards MDs with interest but little background in MRI)
