SC SMRT Spring Meeting Agenda

An experienced faculty has been secured for the didactic portion of this one day course that will provide continuing education as well as 8 Category A CE Credits with SMRT Approval which is a recognized CE mechanism of the ARRT.

Note: Speakers and/or topics may change without prior notice.

The Technologist will learn and be able to apply the following to their daily practice:

- Learn more about gradients and the main magnet as related to MR Safety.
- Learn more about RF deposition so concerns for burns in the MRI scanner can be prevented.
- Describe methods to prevent accidents from occurring in the MRI environment by proper screening procedures.
- Learn about growing trends and tools used to safeguard against projectiles in the scan room.
- Learn about new methods of detecting implants prior to MRI.
- Discuss methods and best practice for scanning patient's safely with implants.
- Discuss best practice for reporting, resolving and preventing MRI accidents.
- Review contrast agents used in the past versus new agents and new clinical practice regarding safety and clinical quality.
